RE: Support for SB 986 (Umberg and Portantino)—Vehicles: Catalytic Converters

Dear Senators Umberg and Portantino,

On behalf of the City of Long Beach, I write to support SB 986. This bill will help address the statewide challenges surrounding catalytic converter theft by requiring the tracking of catalytic converter purchases and by prohibiting the sale of a new motor vehicle with a catalytic converter, unless that equipment has been engraved or etched with the vehicle identification number.

Catalytic converter theft has plagued communities across California, with some areas in Los Angeles County experiencing an increase as high as 400 percent. We have also seen a significant surge in catalytic converter theft in Long Beach. In 2021, catalytic converter thefts increased by 50 percent compared to 2020 and by more than 300 percent compared to 2019.

The City supports legislation to regulate metal recyclers of second-hand precious metal transfers and transactions. SB 986 would advance the City's efforts to prevent catalytic converter theft and the sale of stolen goods.

Given these reasons, the City supports SB 986.

Sincerely,
